### The Latest Premium Features – the Top 10

1. **Day View time entry:** quick task entry along while giving timekeepers a visible outlook of their work day.
2. **Billing Troubleshooter:** prevents erroneous billing, prevents inaccurate interest charges to clients, and ensures accurate reporting by displaying incomplete, unapplied, and unapproved transactions.
3. **Duplicate Slips to other Clients:** Eliminate repetitive slip creation by duplicating existing slips and assigning them to other clients for billing in just a few clicks.
4. **Security Access logging:** allows admins to see who logged into Sage Timeslips Premium, when they did it, and where they did it from—perfect for login access auditing.
5. **Timekeeper Week view:** weekly insight for workload distribution and ensure there is no missing time from your timekeepers and staff all in one glance.
6. **LawPay “Pay Now” integration:** gives you the ability to include a "Pay Now" link with your invoices to help get paid quicker through the online LawPay site. And now you can even accept online payments for Client Funds or Escrow accounts.
7. **Increased Performance:** SQL database platform improves overall performance and speed and is more resilient than ever before. Say goodbye to database errors and repair bills.
8. **QuickBill:** allows you to enter all elements of the billing cycle (client, time and expense charges, and payment) all from one centralized location.
9. **Bill Reminders:** actively notifies billing managers when specific clients should be invoiced. Stay consistent with your firm's invoicing frequency or special billing cycles to your special clients.
